Action on Gender Equality

Gender Pay Gaps

The gender pay gap is the difference in average or median earnings between women and men. It is a measure of how we value the contribution of women and men in the workforce. The gender pay gap is not to be confused with women and men being paid the same for the same, or comparable, job – this is equal pay. Equal pay for equal work is a legal requirement in Australia. However, illegal instances of unequal pay can still be one of the many drivers of the gender pay gap. Closing the gender pay gap is important for Australia's economic future and reflects our aspiration to be an equal and fair society for all.

2.1 Do you have formal policies and/or formal strategies on equal remuneration (pay equity and the gender pay gap) between women and men?

Yes

Strategy

2.1a Do the formal policies and/or formal strategies include any of the following?

To achieve gender pay equity; To close the gender pay gap; To ensure no gender bias occurs at any point in the remuneration review process (for example at commencement, at annual salary reviews, out-of-cycle pay reviews, and performance reviews); To implement and/or maintain a transparent and rigorous performance assessment process

2.2 Have you conducted analysis to determine if there are remuneration gaps between women and men?

Yes

2.2a What type of gender remuneration gap analysis has been undertaken?

Like-for-like pay gaps analysis which compares the same or similar roles of equal or comparable value to identify unequal pay; A by-level gap analysis which compares the difference between women's and men's average pay within the same employee category; Overall gender pay gap analysis to identify the difference between women's and men's average pay and gender composition across the whole organisation

2.2b When was the most recent gender remuneration gap analysis undertaken?

Within the last 12 months

2.2c Did you take any actions as a result of your gender remuneration gap analysis?

Yes

Identified cause/s of the gaps; Reported results of pay gap analysis to the governing body; Reported results of pay gap analysis to the executive; Developed a strategy to address workforce composition issues – e.g. attracting more underrepresented gender into specific higher-paying roles

You may also provide more detail below on the gender remuneration gap analysis that was undertaken.

2.3 If your organisation would like to provide additional information relating to employer action on pay equity and/or gender remuneration gaps in your workplace, please do so below.

A detailed gender pay analysis was conducted, covering like-for-like pay equity as well as gender pay gaps. Our pay equity results confirmed a negligible difference between genders. The review included a range of analyses including business units, geographies and employee levels. Our policies require all appointments and promotions to be merit based.

Paid Parental Leave

Parental leave policies are designed to support and protect working parents around the time of childbirth or adoption of a child and when children are young. It's important that it's a policy that's available to all parents, irrespective of gender, recognising the equally important role of all parents in caregiving.
